The pattern is ready to be placed on the fabric.

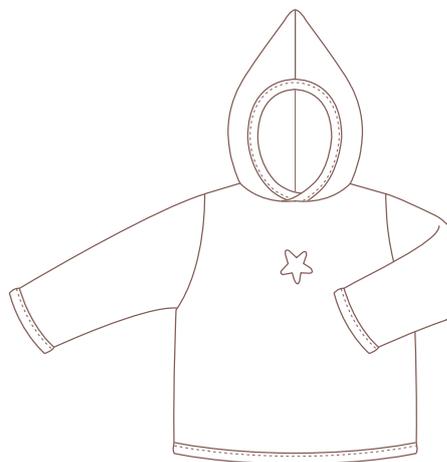

### CUTTING THE FABRIC

Fold the fabric along the grain line. Place pattern pieces on the fabric, making sure to match the markings for grain line with the fabric grain line. Pin the pattern pieces to the fabric, to make sure they don't shift around.

NB! Be extra careful when placing the pattern pieces on fabric with nap or pile such as corduroy or velour.

Also take notice of the fabric design direction when placing the pattern pieces.

Cut out the fabric.

### SEWING THE HOODIE

Sew using an elastic stitch. Overlock/zigzag the raw edges.

1. Sew the shoulder seams, right sides together (you might want to include stay tape in the seam). Sew the hood centre back seam, right sides together. Pin and sew one side of the hood ribbing to the right side of the hood opening, stretching the ribbing as you sew. Fold the hood ribbing over the raw edge to the wrong side and stitch it in place by sewing from the right side, 8 mm from the edge. Trim the seam allowance. Pin and sew the hood to the neckline, right sides together.
2. Pin and sew one side of the sleeve ribbing to the sleeve hem, right sides together, stretching the ribbing as you sew. Fold the sleeve ribbing over the raw edge to the wrong side and stitch it in place by sewing from the right side, 8 mm from the edge. Trim the seam allowance. Repeat for other sleeve. Set in the sleeves, right sides together. Sew the sleeve seams and side seams in one stretch, right sides together.
3. Sew the hem ribbing centre back seam, right sides together. Press seam allowances open. Pin and sew one side of the hem ribbing to the hem, right sides together, stretching the ribbing as you sew. Fold the ribbing over the raw edge to the wrong side and stitch it in place by sewing from the right side, 8 mm from the edge. Trim the seam allowance.

### TIP SIMPLE FINISHING

If you want a simpler finishing of the hems, you can add 2 cm hem allowance to the hem, sleeve hem and hood opening. Fold and press it to the wrong side and stitch with a twin needle from the right side. It's simple and a clean look and the twin needle makes the seam stretchy.
